

# Tree Planters

Updated: 02/22/2025

Tree planters are not DNRC employees; they are independent individuals/ companies compensated for their services. You are responsible for vetting the individual or company's qualifications. This includes verifying their experience, certifications, etc. Proper vetting safeguards the quality and success of your conservation efforts and promotes the long-term health of the ecosystems involved. This list is open to the public. If you or your company would like to be added or removed, email [mtnursery@mt.gov](mailto:mtnursery@mt.gov)
