WHAT WE'LL COVER...

Adopted Rules

What is an emergency?

Emergency 310 Process

Example Timelines

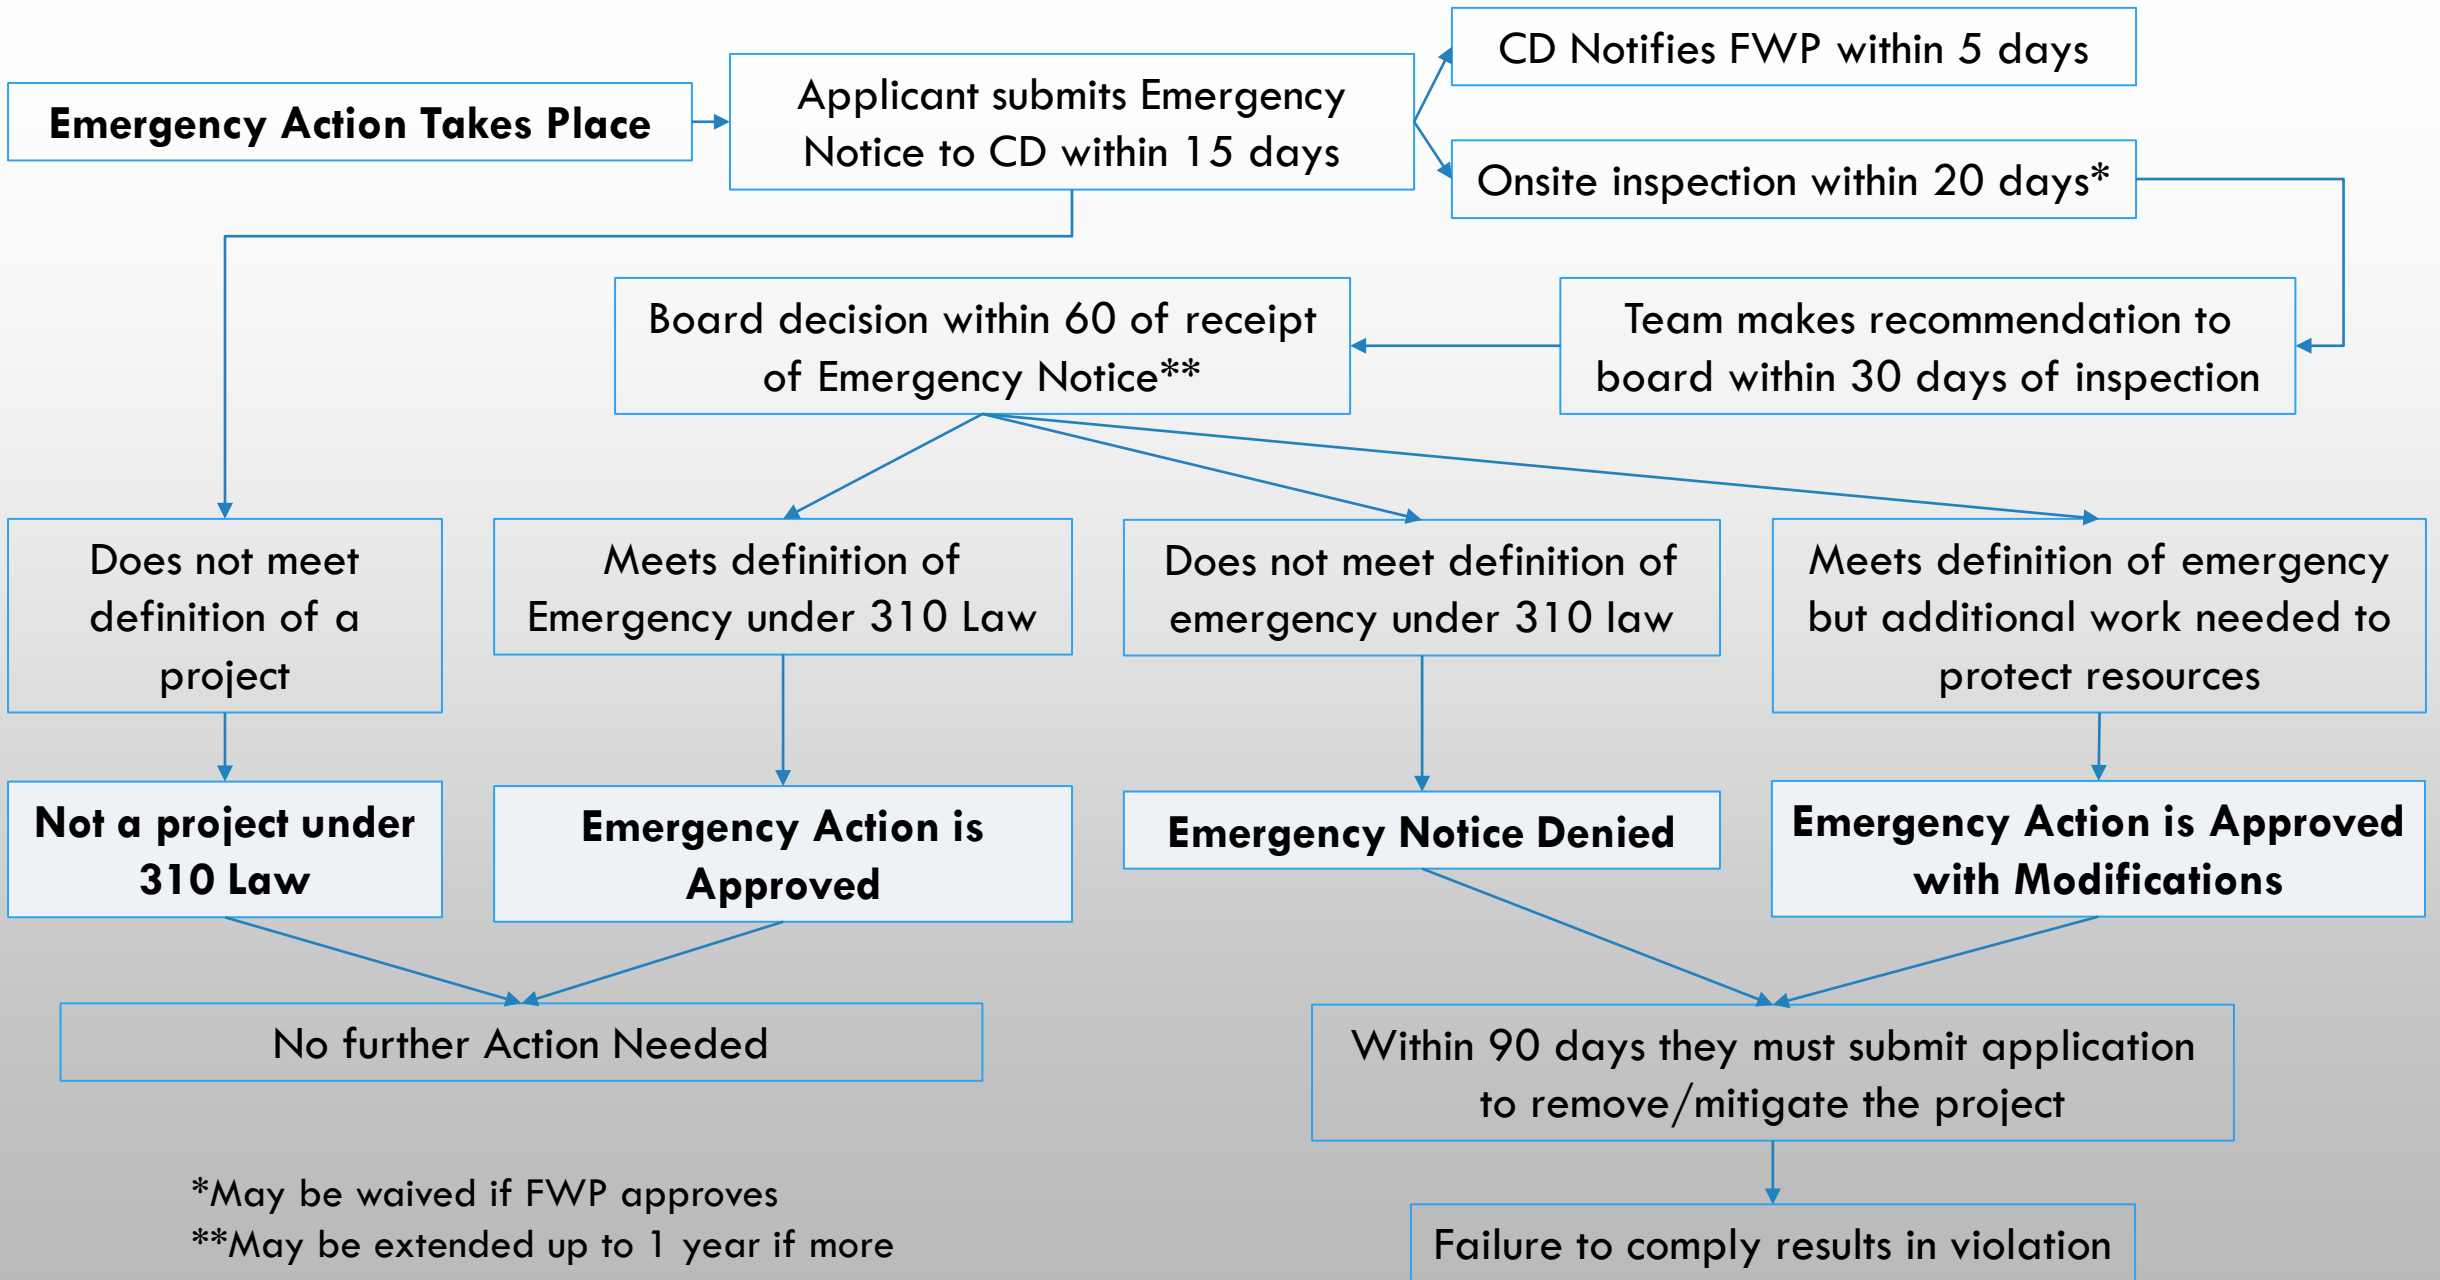

Follow up & what to during recovery

ADOPTED RULES

- The emergency 310 process is laid out in Rule 15 of the Adopted Rules
- Get familiar with your Adopted Rules **BEFORE** spring flooding!!!

WHAT IS AN EMERGENCY?

- "Emergency" means an unforeseen event or combination of circumstances that call for immediate action to safeguard life, including human or animal, or property, including growing crops without giving time for the deliberate exercise of judgment or discretion under the act. [[ARM 36.2.403](#)]
- Failure to plan ahead does not make it an emergency
 - The water comes up every year – submitting an application in April and asking to get the project done before high water is not an emergency
- If they are concerned that an emergency might happen, start with the normal 310 application process. If the worst should happen, they can take emergency action

*May be waived if FWP approves
 **May be extended up to 1 year if more information is needed to make decision

EXAMPLE 1

- Sandbags placed to prevent floodwaters from reaching house

EXAMPLE 2

- Bridge collapses and it is only access to homesite

EXAMPLE 3

- My contractor already had equipment on site, and we wanted to get the project done before the water came up.

EXAMPLE 4

- Landowner cleared debris out of an irrigation ditch to prevent flooding of the field

SUMMARY

- When in doubt, look to your adopted rules!
