**FINAL DECREE OF WATER RIGHTS FOR
YELLOWSTONE RIVER BELOW POWDER RIVER, BASIN 42M
YELLOWSTONE DIVISION**

I. INTRODUCTION

This order is a Final Decree of existing water rights in the Yellowstone River below Powder River and its tributaries. The area encompassed by this decree has been designated as Basin 42M. A map of Basin 42M is attached as Exhibit A.

II. FINDINGS OF FACT

1. This Final Decree is part of a general adjudication of water rights in Montana. The Montana Legislature enacted the Water Use Act of 1973 and subsequent amendments to authorize the creation of the Montana Water Court and provide for a statewide adjudication of existing rights. The United States Congress enacted the McCarran Amendment, 43 U.S.C. Section 666, to allow joinder of the United States in any suit “for the adjudication of rights to the use of water of a river system...” 43 U.S.C. Section 666(a)(1).

2. The Montana Attorney General filed a petition requesting an order from the Montana Supreme Court requiring owners of existing water rights to file claims for their water. The Supreme Court issued an order requiring such owners, including the United States of America on its own behalf or as trustee for any Indian or Indian Tribe, to file claims for rights to the use of water arising prior to July 1, 1973.

3. The Supreme Court provided notice pursuant to Section 85-2-213(1)-(4), MCA, which required the order be:

(1) “[P]laced in a prominent and conspicuous place in all daily newspapers of the state and in at least one newspaper published in each county of the state within 30 days” of issuance of the order.

(2) “[P]laced in a prominent and conspicuous location in each county courthouse in the state within 30 days” of issuance of the order.

(3) Provided in written form “to the press services with offices located in Helena within 30 days” of issuance of the order.

(4) Served upon “the United States attorney general or the attorney general’s designated representative.”

4. The statute also authorized the Supreme Court to “give notice of the order in any other manner that will carry out the purposes of this section.” Section 85-2-213(5), MCA.

5. The Supreme Court established a claim filing deadline of April 30, 1982.¹ Claims for stock and individual as opposed to municipal domestic uses based upon instream flow or ground water sources were exempt from the filing requirement, although claims for these rights were filed.

6. The Montana Legislature subsequently allowed for remission of forfeiture of certain claims not filed by the April 30, 1982 deadline. Section 85-2-221(3), MCA. The deadline for filing these claims was July 1, 1996. The legislature also created a filing deadline for stock and individual as opposed to municipal domestic use claims based upon instream flow or ground water sources. The filing deadline for these claims was June 30, 2019. Section 85-2-222(2)(a), MCA.

7. The Water Court issued decrees in Basin 42M before issuing this Final Decree. These decrees included a Preliminary Decree on January 24, 2014, and an Interlocutory Decree on August 17, 2022.

8. The Water Court provided water users and other interested parties with notice of prior decrees in Basin 42M as follows:

(1) The Court sent a copy of each decree to the Department of Natural Resources and Conservation (DNRC).

(2) The Court served notice of the availability of each decree by mail on each person who filed a claim for an existing right in Basin 42M, or their successor as documented by DNRC records.

(3) The Court served notice of the availability of each decree by mail on each purchaser under contract for deed, as defined in Section 70-20-115, MCA of property in connection with which a claim of existing right was filed in Basin 42M.

¹ Order at 1, Cause No. 14833, Supreme Court of Montana (Dec. 7, 1981).

(4) The Court served notice of the availability of each decree by mail on those issued or having applied for and not having been denied a permit to beneficially use water within Basin 42M pursuant to Title 85, Chapter 2, Part 3.

(5) Notice of the availability of each decree was served by mail on those granted a reservation within Basin 42M pursuant to Section 85-2-316, MCA.

(6) Notice of the availability of each decree was provided to other interested persons who requested notice from the water judge.

(7) Notice of each decree was also published once each week for three consecutive weeks in at least three newspapers of general circulation that covered the water division in which Basin 42M is located.

9. Following notice of the issuance of decrees in Basin 42M, opportunities to file objections and notices of intent to appear were afforded to water users and other interested parties. The Water Court resolved objections and notices of intent to appear by various means including trials, settlements, and withdrawals. The Water Court also resolved issue remarks and counterobjections.

10. This Final Decree includes existing rights for both surface and groundwater.

11. The ownership of water rights shown in this decree is based on ownership records maintained by the Department of Natural Resources and Conservation.

III. CONCLUSIONS OF LAW

1. The term “existing right” or “existing water right” as used in this decree “means a right to the use of water that would be protected under the law as it existed prior to July 1, 1973. This term includes federal non-Indian and Indian reserved rights created under federal law and water rights created under state law.” Section 85-2-102(13), MCA.

2. This Final Decree establishes all claims for existing water rights filed in Basin 42M pursuant to the Montana Supreme Court’s Order of December 7, 1981; all claims filed pursuant to Section 85-2-221, MCA; and all rights defined by Section 85-2-222(1), MCA and claimed pursuant to Section 85-2-222(2)(a), MCA.

3. This Final Decree establishes all existing rights of any federal agency or Indian Tribe pursuant to Sections 85-2-702 and 85-2-703, MCA within Basin 42M.

4. Ownership information on the abstracts attached to the Final Decree was updated through and including December 17, 2024.

5. Section 85-2-234(4), MCA requires that a final decree “must establish, in a form determined to be appropriate by the water judge, one or more tabulations or lists of all water rights and their relative priorities.” The term “water right” is different than “existing water right” and “means the right to appropriate water pursuant to an existing right, a permit, a certificate of water right, a state water reservation, or a compact.” Section 85-2-102(32), MCA.

6. A tabulation of all water rights in Basin 42M is attached as Exhibit B. This tabulation includes water rights adjudicated by the Water Court in this Final Decree, permits, certificates, and state water reservations authorized or issued by the Montana Department of Natural Resources and Conservation.

7. Some of the water rights in the tabulation, including permits for post-July 1, 1973 water rights authorized under Section 85-2-302, MCA; authorizations for changes to water rights issued pursuant to Title 85, Chapter 2, Parts 3 and 4, certificates of water rights issued under Section 85-2-315, MCA; and state water reservations authorized under Section 85-2-316, MCA are not within the jurisdiction of the Water Court. Their inclusion in the tabulation is intended to comply with Section 85-2-234(4), MCA and facilitate the integrated administration of water rights in Basin 42M. This Final Decree is not an adjudication of those rights.

8. Section 85-2-234(5), MCA requires that a final decree must state the findings of fact, along with any conclusions of law, upon which the existing rights and priorities of each person and federal agency named in the decree are based. Many of the water rights identified in Basin 42M were consolidated into cases and modified, terminated, or left intact after resolution of issue remarks or objections. Records from those proceedings can be found in both the Court’s case files and in claim files. Other claims were adjudicated individually without being made part of a case and records of those proceedings exist within claim files. The findings of fact and conclusions of law for the water rights in this decree are included within and part of the case and claim files referenced in this paragraph. Those files are part of the record of the adjudication of existing rights in Basin 42M and the findings of fact and conclusions of law within them are incorporated into this decree by reference.

9. All requirements for joinder of the United States in the adjudication of existing water rights in Basin 42M have been met.

10. The general adjudication of existing water rights by this court was an *inter sese* determination of all claims for existing water rights in Basin 42M except for unfiled exempt rights described in Section 85-2-222(1), MCA.

IV. JUDGMENT AND ORDER

This order is a Final Decree and judgment regarding the validity and characteristics of all existing water rights in Basin 39FJ except for unfiled exempt rights described in Section 85-2-222(1), MCA. Except for unfiled exempt rights described in Section 85-2-222(1), MCA, existing water rights not recognized in this Final Decree are terminated.

This Final Decree supersedes all prior decrees regarding existing rights in Basin 42M. This Final Decree does not supersede permits for post-July 1, 1973, water rights authorized under Section 85-2-302, MCA; authorizations for changes to water rights issued pursuant to Sections 85-2-302, 85-2-320, 85-2-402, 85-2-407, and 85-2-420, MCA; certificates of water rights issued under Section 85-2-315, MCA; and state water reservations authorized under Section 85-2-316, MCA.

This Final Decree does not modify any orders previously made by this Court pursuant to its authority to review decisions of the Department of Natural Resources and Conservation under the Montana Administrative Procedure Act, Section 2-4-702(2)(e)(i), MCA.

This court retains jurisdiction to correct clerical mistakes in this decree and to review any other matters permitted by law.

The clerk of the Water Court is ordered to:

(1) Provide a copy of this decree to the Department of Natural Resources and Conservation, the United States, and the clerks and recorders and clerks of court of Wibaux, Dawson, Prairie, Fallon, and Richland Counties.

(2) Post a copy of this decree on the Water Court website in a format that can be downloaded or printed.

(3) Retain and preserve in electronic or paper format all case files, basin folders, and other records of proceedings of the Water Court in Basin 42M. These

records shall be maintained, organized, and identified in a manner that makes them searchable, reproducible, and accessible to members of the public.

(4) Arrange for and provide notice of availability of this decree in conformance with the requirements of Section 85-2-232, MCA.

Within ten business days of execution and filing of this decree, the Department of Natural Resources and Conservation is ordered to:

(1) Post a copy of this decree on its website in a format that can be downloaded or printed.

(2) Maintain a copy of this decree for public inspection at its field office in Glasgow, Montana and its headquarters in Helena, Montana.

(3) Post final decree abstracts of the water rights in this decree on its electronic database and make those abstracts available to the public in a format that can be downloaded or printed.

(4) Retain and preserve in electronic or paper format all claim files for existing rights in Basin 42M, including the original claims and all attachments thereto; all supplemental documents filed by any party with the Department in conjunction with each claim; all correspondence to or from the Department regarding each claim; all reports and documents produced by the Department in the course of reviewing, verifying, examining, or investigating each claim; all ownership updates regarding each claim; and all documents, orders, correspondence, or other materials produced by or for the Water Court in each claim file. These records shall be maintained, organized, and identified in a manner that makes them searchable, reproducible, and accessible to members of the public.
